*Note: In the beginning of December, 2007 the SBA split investments into two funds, which consist of the Local Government Investment Pool (LGIP) (86%), and Fund "B" (14%). Fund B allocation has been reduced to \$203,473 due to increased liquidity in Fund B and the distribution of funds in the reserve account. Fund B cash holdings are being distributed back to the LGIP account as they become available from maturities, sales, and income received. We do not anticipate needing to utilize the funds in Fund B while they are restricted. The ending net asset value of Fund B as of 07/31/14 is \$431,660 with an unrealized gain of \$228,188.

**Note: State Board of Administration Fund "B", Florida Local Government Investment Trust, Invesco Investments, and FGLIT Day to Day Fund gain(loss) is unrealized and is based on the net asset value as of 07/31/14.
